

WELCOME TO

Meadow Hall 1 Community Homeowners Association

Hello Neighbors,

Daylight Savings Time has arrived and Spring is right around the corner.

As the days grow longer and the weather begins to warm, it's time to welcome the arrival of Spring in our beautiful community. Here are a few suggestions that homeowners can follow to ensure their properties are ready for the upcoming months.

Lawn, Shrub and Tree Care: Spring is the perfect time to start preparing your lawn, shrubs and trees for the growing season. Consider aerating, treating and fertilizing your lawn to promote healthy growth and address any bare patches. Also consider pruning and fertilizing your shrubs and trees.

Mulch and Flower Beds: If you have mulch or flower beds, now is the time to start cleaning up any debris from winter and preparing the soil for planting. Consider adding mulch to retain moisture and suppress weeds, and start planning your spring planting to add color to your outdoor space.

Exterior Maintenance: Take a walk around your property to inspect for any damage caused by winter weather. Check your roof, gutters, and siding for any signs of wear or damage, and schedule any necessary repairs or maintenance to keep your home in top condition. Additionally, pay attention to any signs of wood and window rot. Water damage from rotten wood around windows can damage the inside and outside of your home. Consider addressing these conditions promptly to prevent further damage.

Pest Control: As temperatures rise, pests such as ants, mosquitoes, and termites become more active. Take steps to prevent infestations by sealing entry points, eliminating standing water, and scheduling regular pest control treatments if needed. Be vigilant in preventing termites by inspecting wood structures for signs of damage and treating any affected areas promptly.

Driveway Maintenance: Inspect your driveway for cracks, stains, weeds, and residue. Clean and consider resurfacing or sealing if needed. A fresh coat of sealant can enhance the curb appeal of your home and a little driveway care can bring big returns later.

HOA Guidelines: Lastly, please remember to review our community's HOA guidelines to ensure that any outdoor projects or improvements comply with our regulations. If you have any questions or concerns regarding HOA rules, don't hesitate to reach out to us for clarification.

By taking these simple steps, you can help all of us maintain the beauty of our community as we transition into the Spring season.

Wishing you a happy and prosperous Spring!

Sincerely,

Your HOA Board
